**Country of origin**

Confirmed per quotation

**Packaging**

Bulk

**Delivery**

DAP, destination by agreement

## Portfolio specification

|                 |                |
|-----------------|----------------|
| Crude protein   | 13.58%         |
| Crude fat       | 3.85%          |
| Crude fibre     | 31%            |
| Pellet diameter | 6 mm           |
| Moisture / ash  | TDS on request |

Portfolio characteristics are indicative. Numerical analysis, grade and acceptance limits require a current grade-specific TDS.

This sheet is not a batch certificate, signed TDS or certificate of analysis. Current technical documentation and applicable certificates are available on request.
